

Governmental Links for California Lawyers

These links represent what is believed to be one of the most complete listings of both government organizations in California and the URLs associated with each. However, as with any such list, there will inevitably be changes. Other sites may be found to be useful. This list will be updated from time to time. Suggestions for changes or additions should be sent to <suggestions @cenprowest.com>.

This PDF document may be **searched** using the free Adobe Acrobat Reader (if you installed the search function with Reader) to find a particular governmental unit and you should be able to click on the URL to bring up the site in your web browser. However, no representation is made that either function will work with all combinations of hardware and software.
